

PLAN OF LECTURES
in the 4th term of 2022/2023 academic year
FOR THE FACULTY OF FOREIGN STUDENTS
(in English language)

DATE	THEME	LECTURER
22.02	Metabolism of glycogen. Regulation of carbohydrate metabolism	Assoc. prof. N.E.Petushok
Self-study topic	Metabolism of simple and complex lipids	Assoc. prof. N.E.Petushok
22.03	Regulation of lipid metabolism. Disturbances of lipid metabolism.	Assoc. prof. N.E.Petushok
05.04	Biochemistry of hormones	Assoc. prof. A.A.Maslovskaya
Self-study topic	Biochemistry of nutrition. Vitamins	Assoc. prof. Y. M. Doroshenko
19.04	Biochemistry of the blood. Biochemistry of the liver	Assoc. prof. A.G.Vinitskaya
03.05	Metabolism of water and minerals. Biochemistry of kidney and urine	Assoc. prof. A.G.Vinitskaya
Self-study topic	Biochemistry of nervous tissue	Assoc. prof. A.V.Naumov
17.05	Biochemistry of muscles and connective tissue	Assoc. prof. A.G.Vinitskaya
31.05	Integration of metabolism. Principles of clinical biochemistry	Assoc. prof. A.G.Vinitskaya

**Head of department
of Biochemistry,
professor**

V.V.Lelevich
