Department of Surgery II

«FIRST AID» course

for international students of the 1st year at the Surgery Department II

First aid is the initial assistance or treatment given to a person who is injured or taken ill. The person who provides this help is a first aider. This course prepares you for being a first aider, psychologically and emotionally, as well as giving practically advice on what you should not do in an emergency. The skills acquired throughout this course will help you to provide you effective first aid to any casualty in any situation.
