Requirements produced to the students by the department of medical biology and genetics

Student should

1. observe behavior and safety measures rules on a department,
2. make thrifty use of property and the equipment,
3. have pencils, ruler, eraser and a workbook that are necessary for work on laboratory research. Without the workbook and dressing down students will not be admitted to classes,
4. come in time for classes.

The students who have missed classes have to present a permit note from the dean`s office and to come to the tutorial. Without a permit note students will not be admitted to the next class. Tutorials are held on Thursday and Friday of every week with 17.00 till 19.00.
