

**PROCEDURE FOR MONITORING THE RESIDUAL KNOWLEDGE OF
THE THIRD YEAR MEDICAL STUDENTS AT
THE END OF THE FIFTH SEMESTER
2020-2021 ACADEMIC YEAR**

1. At the last lesson of the semester (Lesson 36), each student must pass the computer-based assessment survey to demonstrate their residual knowledge on Microbiology.
2. The survey will include questions from all sections of Microbiology: General Microbiology, Immunology, Medical Bacteriology with basics of Mycology and Protozoology and Virology.
3. Three students from every group who will show three best results will be allowed to participate in the Olympiad on Microbiology.
4. The results shown by every student will be taken into account at the final exam on Microbiology for evaluation of the examination mark.
