

Due to the fact that department of general surgery is a clinical department, you should be ready to go with your teacher to limited access areas (dressing and medicaments room, operating theater etc.).

Obligatory things that student must have for every class of general surgery are:

1. Scrub set or scrub pants with lab coat.
2. Medical cap and mask.
3. Second pair clean shoes (non-markable).
4. Shoes covers.

5. Single use surgical coat.

Students who don't have all of these garments won't be allowed to join the class.

All this things you can buy at the pharmacy.
