

TOPIC PROGRAM
of lectures, lessons and controlled self-work of students, 2022-2023

Date	Week	LESSONS TOPIC	LECTURE TOPIC
02.09.			Injury (alteration). Dystrophies. Necrosis. Part2
05.09-09.09	1	Introduction to the discipline "Pathological Anatomy"	Injury (alteration). Dystrophies. Necrosis. Part1
12.09-16.09	2	Injury (alteration). Dystrophies. Necrosis (lesson 1).	Disturbances of the blood and lymph circulation. Part2
19.09-23.09	3	Injury (alteration). Dystrophies. Necrosis (lesson 2).	
26.09-30.09	4	Injury (alteration). Dystrophies. Necrosis (lesson 3).	General characteristic of inflammation. Exudative and productive (proliferative) inflammation. Part2
03.10-07.10	5	Injury (alteration). Dystrophies. Necrosis (lesson 4).	Disturbances of the blood and lymph circulation. Part1
10.10-14.10	6	Disturbances of the blood and lymph circulation (lesson1).	General characteristic of tumors. Epithelial, mesenchymal tumors (1). Part2
17.10-21.10	7	Disturbances of the blood and lymph circulation (lesson 2).	General characteristic of inflammation. Exudative and productive (proliferative) inflammation. Part1
24.10-28.10	8	General characteristic of inflammation. Exudative and productive (proliferative) inflammation (lesson 1).	General characteristic of tumors. Epithelial, mesenchymal tumors (2). Part2
31.10-04.11	9	General characteristic of inflammation. Exudative and productive (proliferative) inflammation (lesson 2).	
08.11-11.11	10	Final lesson №1.	Tumors of the nervous and melanin-forming tissue. Tumors of the hematopoietic tissue. Part2
14.11-18.11	11	Processes of compensation and adaptation.	General characteristic of tumors. Epithelial, mesenchymal tumors (1). Part1
21.11-25.11	12	General characteristic of tumors. Epithelial, mesenchymal tumors (lesson 1).	Diseases of the cardiovascular system. Part2
28.11-02.12	13	General characteristic of tumors. Epithelial, mesenchymal tumors (lesson 2).	General characteristic of tumors. Epithelial, mesenchymal tumors (2). Part1
05.12-09.12	14	Tumors of the nervous and melanin-forming tissue. Tumors of the hematopoietic tissue (lesson 1).	Tumors of the nervous and melanin-forming tissue. Tumors of the hematopoietic tissue. Part1
12.12-16.12	15	Tumors of the nervous and melanin-forming tissue. Tumors of the hematopoietic tissue (lesson 2).	Diseases of the cardiovascular system. Part1
19.12-23.12	16	Final lesson №2.	
26.12-30.12	17	Diseases of the cardiovascular system (lesson 1).	

02.01-06.01	18	Diseases of the cardiovascular system (lesson 2).	
09.01-13.01	19	Diseases of the respiratory system (lesson 1).	

Note: Supervised self-studying work will be

students

Head of the department

conducted at the agreed time with the

V.A. Basinskiy
